Application No. 10/603,574  
Paper Dated: June 21, 2005  
Attorney Docket No.0964-030780

This application corresponds and claims priority to German Patent Application No. 102 28 631.0, filed June 26, 2002. The references identified in Form PTO/SB/08A were cited in the European Search Report dated May 2, 2005. A copy of the European Search Report is attached hereto. The relevance of FR 1558324 is indicated in the European Search Report. This reference shows an agricultural tracker within an intermediate frame which supports the driver's cabin. This intermediate frame is supported on the vehicle frame by springs and dampers. The Applicant is not able to identify any corresponding English-language equivalents or abstracts of FR 1558324. DE 4413630 cited in the European Search Report is not identified on Form PTO/SB/08A, as it was previously cited and provided in the Information Disclosure Statement dated March 3, 2004.

Since each reference cited on the Form(s) PTO/SB/08A was cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this Supplemental Information Disclosure Statement, no fee is due for the filing of this Supplemental Information Disclosure Statement (37 C.F.R. § 1.97(c)(1)). Nevertheless, the Commissioner of Patents and Trademarks is hereby authorized to charge any fees which may be required to Deposit Account No. 23-0650. One (1) original and two (2) copies of this Supplemental Information Disclosure Statement are enclosed.

Respectfully submitted,
